Searchers Try to Find Balloon in Venezuela

By RICHARD G. MASSOCK

CARACAS, Venezuela (AP) — Aerial searchers tried today to pin down unconfirmed reports from ham radio operators that the British balloon Small World had landed in eastern Venezuela after a transatlantic flight.

The air search began Friday over the jungle area of the Orinoco River delta.

The amateur radio operator reported that the balloon and its four passengers had landed near Pedernales, a Venezuelan port on the Atlantic at the northern edge of the wide delta. The town is just 20 miles west of the tip of Trinidad in the British West Indies.

The report gained strength when Minister of Communications Oscar Machado Zuloaga was quoted in Caracas newspapers as saying the balloon had landed in Venezuela. The Civil Aeronautics Authority said, however, that it had nothing to confirm the report. It was supervising the search by a Communications Ministry DC3. After searching for only an hour or two, the plane was forced by darkness to land at Maturin, 60 miles west of Pedernales.

The Small World cast off from Santa Cruz de Tenerife in the Canary Islands, 65 miles off the coast of Morocco, on Dec. 12. The goal was to drift with the winds to Barbados, some 3,000 miles away in the West Indies Federation.

Pedernales is about 3,450 miles from the takeoff point. Those aboard were pilot A. B. Elliott, 51, a London businessman; his son Timothy, 21, radio man; navigator Colin Muddle, 31, who crossed the Atlantic in 1952 in a 19-foot whaleboat; and Muddle's wife Rosemary, 30, the cook, photographer and copilot.

Well It Will Work Out for a Time

BERKELEY, Calif. (AP) — Hand-in-glove cooperation between the president and vice president of the University of California student body may be expected when classes resume after the holidays. "They will be man and wife."

William Albert Strickland, the president, and Suzanne Trees were married here at the start of the holidays.

FLOODED OUT

ALBUQUERQUE, N. M. (AP) — B. P. Gambrel estimates, his lost about \$500 in earthworms when someone opened an irrigation ditch and flooded the plot where he was growing them for fishermen.

Spend Holiday Checking Clues in Murder

ST. LOUIS (AP) — Tips, anonymous telephone calls and unsigned letters were checked Thursday without reward by homicide detectives investigating the slaying of James S. Bullock, 27, a Negro, who was shot Wednesday night in a rooming house.

Bullock was shot three times with a .22 caliber weapon shortly after dark eight days ago near the City Art Museum in Forest Park.

Workmen spent Wednesday searching all the sewers near the scene of the crime for the murder weapon, but without success.

So far four figures in the case have refused either to be questioned or to take a lie detector test.

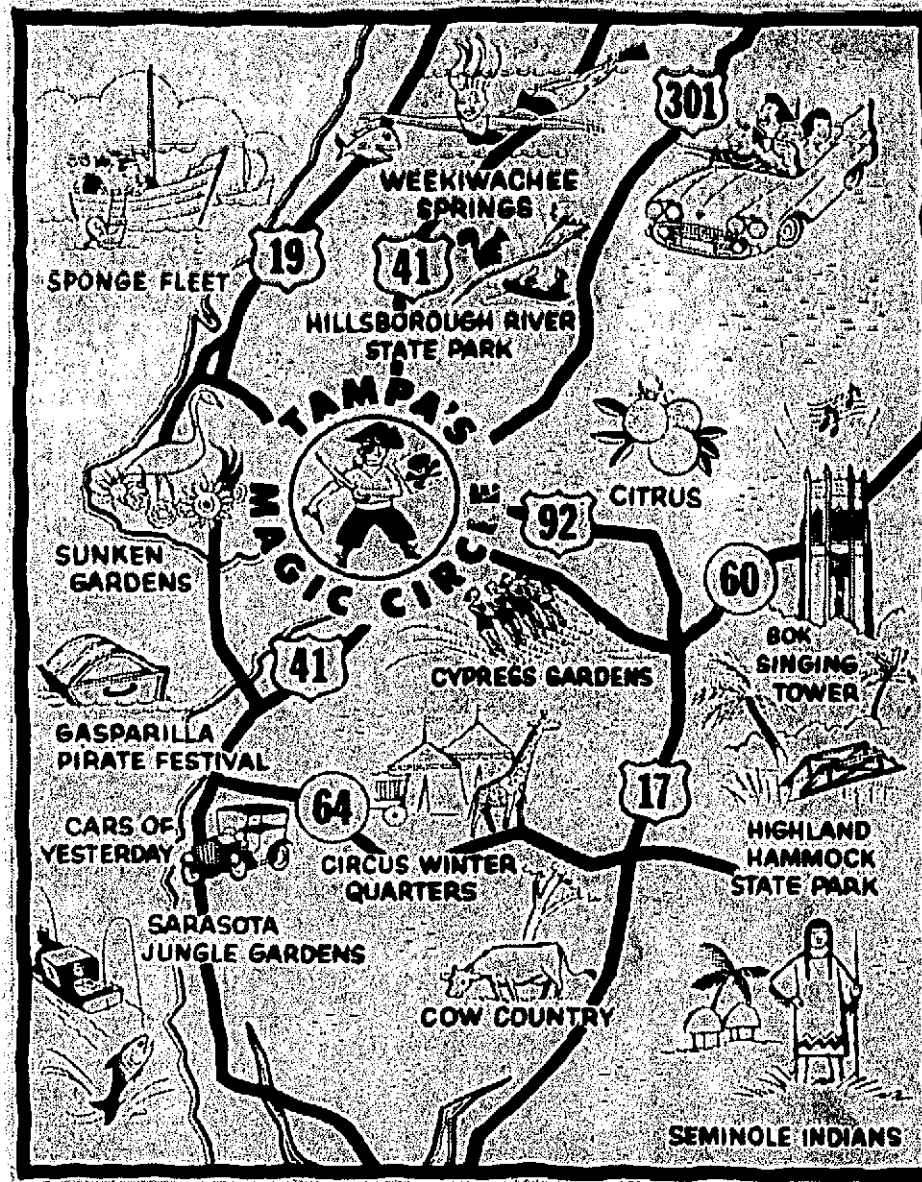

They are Bullock's widow, Edna Ruth, an attractive 27-year-old kindergarten teacher; Dr. Glenn Engelman, 31, a dentist, who was Mrs. Bullock's first husband; Thomas J. Johnson, 23, a high school teacher, and Mrs. Edna Engelman, the dentist's second wife.

Johnson has given Engelman an alibi saying he and the dentist were together in his office the time of the slaying. However, police have statements from several persons saying the dentist wasn't in his office when he says he was.

There have been no arrests. Mrs. Bullock, who maintains she will never submit to a lie detector test, is the beneficiary of a large amount of life insurance. Her husband had they were married about six months ago.

Weather
ARKANSAS — Rainy, cloudy and mild today and tomorrow.

A Magic Circle Tour: Tampa Is Tourist Magnet of Florida's Great West Coast

Editor's Note: This is the fourth in a series of suggested highway tour maps which Hope Star will publish on a weekly basis. The series will cover the South and Southwest during the winter months, and the Northern sections in the spring. This is excellent material to cut out and paste up in a scrapbook for future reference when planning your vacation trip.

By EDWARD COLLIER

You will never get bored in Tampa. From age 8 to 80 there is fun — something to do, see, photograph. Or you can just loaf in the sun.

Perhaps it is because this Florida West Coast tourist magnet is a city whose activities are built around the guest's car. We were part of the Tampa area's statistics: Some 73 per cent come by automobile.

Centered in this area are the twin cities of Tampa and Saint Petersburg, divided only by Tampa Bay where avid anglers each spring catch the sporting tarpon in the shadows of downtown office buildings.

Tampa has an intriguing old-world charm all its own, especially when you stroll through or dine in the Latin section known as Ybor City. We visited one of the many cigar factories where they still roll perfectos by hand, while the plant loud speaker played classical Spanish melodies to keep the workers from becoming bored.

Full flavor of the Caribbean is experienced when you visit the waterfront, where huge turtles are brought in from the Galapagos Islands, tons of lead shrimp are unloaded from seaworthy small fishing boats from off-shore Mexico and banana boats from the tropics dock.

If you come south from Mobile or New Orleans you enter the area's Magic Circle (U.S. 19) at Weekiwachee Springs, with its underwater theater, acrobatic mermaids and water ballet. Our thrill was going underwater through the subterranean chamber and watching the aquamats at close range as they swam among the fishes.

Next objective is Tarpon Springs, one of the state's most delightful towns and home port for the Greek sponge fishing fleet. There is the sponge market to see and exotic Greek food to eat.

Kindred tourists on the Gulf Coast is Dade City, the silver and glass center, whose economy is based on two occupations: being kind to tourists and growing gladioli. And don't overlook popular Clearwater Beach, reached by a causeway, or the famed Japanese Gardens, called Eagle's Nest.

You continue along U.S. 19 into St. Petersburg, which has been continuously promoted as the "sunniest city in the United States." Bordered on three sides by water of Tampa Bay and The Gulf, it provides a fisherman and yachtsman's paradise. Waterfront Park offers a municipal pier jutting 2,400 feet into the bay.

To the west across Boca Ciega Bay, is a chain of barrier islands known as the Holiday Isles, including the beautiful beach resorts of Passaigra, Treasure Island, Madeira Beach, Redington Beach and Indian Rocks. There are beaches and swimming.

Why Not Count Your Blessings and Try to Be Worthy of Them?

By MARY ANITA LASETER

This time of year we are more than ever conscious of physical and spiritual birth. The birth of the Son of God. The birth of a new year.

Henry Thoreau once asked, "Has it ever occurred to you what you would miss had you never been born?"

An embittered person would immediately name unhappy events and painful occurrences because they happen to everyone at one time or another in some form.

But why look at the question with that attitude? Dr. Norman Vincent Peale supplied a much more satisfying answer when he said:

"If you had never been born, you would never have seen a full, silvery moon, peeking between buildings and making a great city mysterious with its loveliness."

"Had you never been born, your soul would not have been stirred by the afterglow bathing the meadows at evening as the stars, steadily bright, come out in the darkened sky."

"Had you never been born, you would never have seen the light of love in a human eye, or felt baby fingers curling around your own."

"And you would never have been able to get up on a crisp, cool morning to feel the blood coursing through your system."

The happy people of the world since the beginning of time have regarded unhappiness as salt in the pudding to bring out its sweetness. Since that philosophy could hardly be improved upon, why not try it yourself?

Count your blessings, and then try to be worthy of them.

President Goes to Gettysburg Farm

WASHINGTON (AP) — President Eisenhower set off today for his country estate at Gettysburg, Pa., to relax and work on messages to Congress. He plans to stay through New Year's Day.

Eisenhower took with him drafts of both the State of the Union message he will present to Congress a day or two after it convenes Jan. 7 and the budget message to be transmitted in mid-January.

With Mrs. Eisenhower and their grandson, 10-year-old David, the President left the White House at 2 p. m. on the 80-mile drive to his farm.

Chinese Reds Retreat From Radical Plan

By THOMAS P. WHITNEY
AP Foreign News Analyst

Broadcasts from a Chinese Communist station show a retreat from the radical egalitarian communism in many of the new people's communes.

These communes are feminist units of tens of thousands of people which own everything and run everything in all rural China — agriculture, industry, politics and even a local militia or army.

As originally organized they were not totally egalitarian, but apparently as the movement has spread with forced impetus from the Peiping government, they have generally become more radical and more egalitarian.

Some stress is put on the idea that the communes are building for socialism, not communism. Earlier the Chinese Communist party's Central Committee indicated that the communist would permit China to move directly into communism in the near future.

To non-Communists the distinction between socialism and communism may seem thin. But not to Communists. Socialism is defined as a stage of development in which all persons work according to their abilities and receive compensation according to their quantity and quality of their work.

Communism, on the other hand, is a stage in which all work according to their ability and receive according to their needs.

Broadcasts proclaiming a retreat from extreme egalitarianism emanate from Wuhan Station in Hubei province in central China. They cite a letter from Wang Jen-chung, the first secretary of the Hubei province Communist party, saying "there is now an erroneous tendency toward absolute egalitarianism."

It adds that this takes form of equalizing the pay of all commune members and imposition of an equalized food allowance system.

Aussies Hope Reds Will Leave Territory

MELBOURNE, Australia (AP) — Australia hopes the Soviet Union will not stay at Miny, its base in Australian Antarctic territory, Foreign Secretary R. G. Casey said today.

Hiding farewell to Australia's 1959 Antarctic expedition, Casey described the Soviet occupation of the island, established 18 months ago for the International Geophysical Year, as temporary.

Casey admitted Australia's right to the Antarctic territory has never been recognized by the United Nations.

"But we have been there 30 years — the Russians have been there only 18 months," he said.

Settlement of News Strike Appears Near

NEW YORK (AP) — A tentative settlement has been reached in the costliest newspaper strike in New York City history. A back-to-work move hinges on a membership vote Sunday by striking deliverers.

The peace formula to end the strike, now in its 16th day, was announced Friday night by the nation's top federal mediator, Joseph P. Finnegan. He expressed himself as "highly pleased" by the package settlement granting wage increases and other concessions.

The nine struck dailies, may be back on the streets by Monday if terms are accepted by the independent Newspaper Mail and Deliverers Union.

Aster Schwartz, union attorney, said union officials are confident the terms will be acceptable to the membership.

The new two-year pact includes a \$3.55-a-week pay hike the first year, \$1.75 the second year, Columbus Day as a ninth paid annual holiday, and three days paid stock leave a year. The union gave up its demand for a shorter work week. They have been on a 40-hour week.

The agreement represents a compromise of the publishers' original offer of a \$7-a-week wage package spread over two years — \$4 the first year and \$3 the second. Present wages average \$103.22 weekly.

Bernie Cameron, president of the Newspaper Publishers Assn., termed the peace proposal a redistribution of the \$7 package "along lines which the negotiating committee of the drivers' union prefers."

The newspapers involved are the Times, Herald Tribune, Daily News, Mirror, Journal-American, Post, World-Telegram and Sun, Long Island Star Journal and Long Island Daily Press.

Neighbors Knew Him as a Nice Man

SAN DIEGO, Calif. (AP) — Neighbors knew the big red-haired man as Art Nelson, a gardener and handyman.

It wasn't until police at nearby El Cajon picked up Nelson on a routine petty theft warrant Friday that they learned his true identity: "Daniel" William O'Connor, 29, one of the FBI's 10 most wanted fugitives. He also had been tagged by the Royal Canadian Mounted Police as one of their most wanted men.

In an effort to evade capture, O'Connor had gained 58 pounds, dyed his hair red, grown a big bushy mustache and added a tattoo on his arm. He insisted his name was Art Nelson.

Little America Soon to Be Forgotten

By CHARLES MAHER

LITTLE AMERICA (AP) — Little America soon will be nothing but a dark and icy monument to the curiosity of man.

This last of the Antarctic beachheads established by the late Rear Adm. Richard E. Byrd is being closed as soon as possible after the International Geophysical Year ends next Wednesday.

Evacuation of the snow-covered station built near Kainan Bay on the Ross Ice Shelf in 1956—fifth in a series of Little Americas that Byrd started some 40 miles away during his 1928-1956 expedition—is scheduled to start Jan. 2.

U.S. Navy men and some 12 IOY men are to lead a group on Little America to conduct support scientific work that ranged from investigation of the heavens over the station to the ice hundreds of feet beneath it.

Tentative plans call for the evacuation of other groups Jan. 5 or Jan. 8. If the ships are delayed, however, or the weather is bad, the rear guard possibly may not get out before the end of January.

Most of the equipment in and around the station will be left until late next year—or possibly forever.

Cmdr. Thomas Thompson of Miami, Fla., the base command, says he will be lucky to get out 30 per cent now.

There is about 1,000 tons of stuff that could be taken out and used again, he said. About 200 tons have already been shipped out. We may get out 100 tons more. The things we are moving this time include radio and equipment parts needed at other stations.

A lot of stuff here has had three years' service. When it gets that old, moving it costs almost more than it is worth."

Arkansas' Farmers Battled the Elements in 1958, Producing a Much More Valuable Crop

By CLIFTON WELLS

LITTLE ROCK (AP) — Arkansas' farmers in 1958 battled the elements, blackbirds and boll worms and produced a much more valuable crop than the year before.

They also were more heavily in debt.

The outlook ahead? Much depended on the control of destructive agricultural pests and on the weather, which cannot be controlled. Much also depended on the action of the new Congress which convenes next month.

Except from the standpoint of the cotton farmer, Arkansas' weather this year was greatly improved over last. In 1957 the state's farmers met near disaster when unusually heavy rains delayed planting and fall rains and freezes hampered the late harvest.

This year it rained too much for cotton, lowering its grade, but the mild summer produced a bumper soybean crop and generally aided other crops.

Statistical Miles McPeak said Arkansas' major crops had a total estimated value of \$400,520,000, 7 per cent above last year's \$375,148,000.

This year's cotton was worth \$179,473,000; soybeans \$94,310,000; rice \$55,000,000; hay \$22,84,000; and corn \$18,891,000.

While cotton retained King's accounting for 45 per cent of Arkansas' farm income — more \$3.31 more farmers placed cotton acreage in federal reserve programs and turned to greater production of soybeans.

The record soybean crop, 49,637,000 bushels, was nearly four times the 10-year average.

The year's 920,800 running bales of cotton, however, was the smallest crop of cotton the state has produced since 1935. It compared with 991,000 bales last year.

And, McPeak added, the state's cotton acreage was the smallest since 1977.

Farm year 1958 was shaped largely by the year before. Farmers, staggered by 1957's adverse weather and resulting losses, rushed last spring to Agricultural Stabilization and Conservation office to offer acreage for the federal Soil Bank program.

Congress passed an emergency appropriation to handle the flood of applications.

The state ASC office reported that Arkansas farmers put 391,000 of their 1,416,000-acre federal allotment for cotton into the Soil Bank.

Acreage in reserve and allotment figures for other crops included: Rice, 53,000 and 398,000; wheat, 40,000 and 56,000; corn, 53,000 and 67,000.

For this — plus 139,000 less productive acres of land in the conservation phase of the Soil Bank — Arkansas farmers received about 26 million dollars in federal payments.

Farmers also sought relief through loans from the Farmers Home Administration.

At the end of the 1957-58 fiscal year Arkansas farmers had borrowed a staggering \$3,208,000 in FHA loans. They had owed only \$608,000 at the end of the previous fiscal year.

Because of the halting cotton growers took during 1958 from excessive rain the U.S. Agriculture Department declared 10 Arkansas counties eligible for emergency FHA loans.

Farmers who had paid up previous FHA and those who had never borrowed before were eligible for the emergency loans in Johnson, Pope, Mississippi, Craighead, Polk, Cross, Crittenden, St. Francis, Lee, Phillips, Lincoln, DeKalb, Howard, Chicot, Ashley and Columbia counties.

In addition, FHA listed to counties in which it would grant loans only to previous borrowers who had paid up, and 26 in which it would make loans only to those farmers already indebted to the agency.

For the first time in recent history, the state's cotton farmers were faced with the threat of the destructive pink boll worm.

The boll worm was found in 23 scattered counties — apparently carried by transient farm laborers from infested areas of Oklahoma and Texas.

State and federal officials concentrated most of their efforts on pinpointing the boll worm and urging farmers to take measures to prevent further spread.

J. C. Haley, supervisor of the federal Pest Control Division in Arkansas, said the boll worm this year caused no commercial losses in this state.

He said that if farmers and governmental agencies follow up with effective control measures, future cotton crops will not be endangered.

Blackbirds this year cost growers of rice, grains and sorghum an estimated \$5,677,400. This figure was reached by the Agricultural Extension Service which surveyed the state.

No survey was made in 1957 but in that year officials estimated damage from blackbirds in the millions.

An extension service spokesman said there was no known effective control.

Students to Present Baptist Program

College students from the First Baptist Church will present the annual student night at Christmas Sunday, at 7:45 p. m. Taking part will be Jane Burroughs, Dale Zinn, Marjorie Bowden, LaNelle Fuller, Jerome Wallon, Walter Smiley, Mary Jean Sparks, Charles Little, Bill Davis, Dorothy Whitten, Bill Osborn, Wayne Smiley and Mary Charlene Horton.

Following the service an informal reception will be held for the students at the home of Mr. and Mrs. M. S. Bates.

Revolution Makes Havana Very Tense

EDITORS NOTE — The revolutionary situation in Cuba is growing increasingly tense. United Press International has collected reports from correspondents in Cuba, Washington and New York and Miami, centers of rebel activity. The findings were summarized by a reporter who also spent some time in Cuba earlier this year.

By JACK V. FOX
United Press International

The once gay Cuban capital of Havana is a sullen place today. It appears quite possible there could be large scale bloodshed in the city and throughout Cuba within the next 60 days.

The revolutionary army of Fidel Castro has swelled in two years from a band of 25 men to something like 10,000. They control large chunks of the eastern end of the island.

President Fulgenio Batista, dominant figure on the Cuban political scene for 17 of the past 25 years, has made Havana almost an armed camp. Havana police patrol every street, each carrying a live man armed with five tommyguns. Tank reinforcements arrived this week at nearby Camp Colombia.

Batista's term of office ends Feb. 24. His hand-picked successor, Andres Rivero Aguiar, is to take office then. But Castro and other opposition elements have refused to recognize the validity of his election several weeks ago. It is believed they may strike before Batista leaves the presidency.

Danger of Snipers
The central highway which connects the island from west to east can no longer be traveled past the mid-way point because of snipers. It is impossible to go by railroad across the country. Some 300 railroad and highway bridges have been dynamited.

In the three eastern provinces of Cuba, Batista's army garrisons patrol the towns by day, then hold up at night. Then the rebels take over. In Oriente, the easternmost province, large Castro forces are fortified in the mountains.

Many of the sugar plantation operators have made a "deal" with Castro. It is estimated 75 per cent of the crop will be harvested with his permission. The sugar men are paying Castro 10 and 15 cents per bag of sugar as royalty in return. The crop is the backbone of the nation's economic life — a \$650 million business this year.

Half the island has no phones — the poles were cut down. So far, the rebel movement that it seizes all lines at gunpoint, kidnaps and holds American citizens.

Hotels Losing Money
The lavish luxury hotels and gambling casinos like the Riviera, the Habana Hilton and the Nacional, are losing as much as one million dollars a year. December is the beginning of the tourist season but it will be an abysmal one.

Batista has put about 10,000 teenagers under arms in the past year and sent them into rebel territory after 30 days' training. The Castro men call them "hacendados" — little mouthfuls.

There is talk among Cubans of asking U. S. help to end the fighting, which has already taken thousands of lives. Both Batista's government and the rebels profess to abhor any hint of outside interference. But some sort of mediation to avert a widening of the civil war may be a last resort.

Man Lives Alone at Age of 104

READING, Pa. (AP) — Charles Bales lives alone in a one-room house where he cooks his own meals and gets along fine.

But Thursday at Christmas dinner with his great-granddaughter, Charlie announced he might move to an old folks' home. He said he would make up his mind after the New Year's. There's no hurry.

The Christmas dinner was also a birthday celebration for Charlie. He's 104.

You may think you're younger than you are, but you can't fool a bowl of chili just before bedtime.

Careless Driving Swells Holiday Deaths to 470

By THE ASSOCIATED PRESS

Traffic deaths 382
Fires 71
Miscellaneous 17
Total 470

Careless driving and whirling speedometers swelled an awesome Christmas period traffic toll today but safety officials held out hope that auto fatalities might not hit the all-time holiday record.

The deadly traffic tally, which zoomed Christmas Day to a record-breaking pace, was still "substantially ahead" of 620 deaths predicted for the four-day holiday period by the National Safety Council.

However, a NSC spokesman reported Friday night that the soaring toll might not be bound for the all-time high of 700 traffic deaths, set in a similar Christmas period two years ago.

The NSC said, this was the first time since The Associated Press count started at 6 p. m. local time Wednesday that the toll had fallen below the heavy fatality pace of two years ago.

"These figures are certainly the first glimmer of hope in an otherwise bleak picture. The council hopes we have stopped the advance of human slaughter on the highways. We hope we now have a chance to avoid hitting the all-time high of 700 'dead in 1956,' the spokesman said."

An AP survey for a nonholiday period, from 8 p. m. Wednesday, Dec. 10 to midnight, Sunday, Dec. 14, showed 341 persons died in traffic accidents, 106 in fires and 105 in miscellaneous type accidents, a total of 552.

Russia Warns West Again About Berlin

By HAROLD K. MILKS

MOSCOW (AP) — The Soviet Union warned Thursday that Western insistence on remaining in Berlin could kindle nuclear war that would reach America.

Foreign Minister Andrei Gromyko continued the Kremlin's campaign to force the Western Allies out of West Berlin by predictions of nuclear war if they stay. He boasted Russia is well armed for trouble.

Gromyko spoke at the closing session of the winter meeting of Russian parliament, the Supreme Soviet. He also urged a ban on nuclear weapon tests without controls which the West considers necessary.

Diplomats in Washington said they found nothing new in Gromyko's speech. There was no immediate comment from the State Department.

If an end is not put to the Berlin crisis, Gromyko said, "the threat will further increase of West Berlin becoming a second Sarajevo."

Francis Khrushchev has demanded that the United States, Britain and France pull their 25,000 troops out of West Berlin by June 1, leaving it a demilitarized free city surrounded by Communist East Germany. Western attempts to reach Berlin without East German permission would be aggression against the Soviet bloc, Khrushchev warned.

The West has pledged to stick with the 2,200

Calendar

Saturday, December 27

A formal dance for 11th and 12th grade students and those of college age will be held at the Hope Country Club on Saturday, Dec. 27 beginning at 8:30 p.m. Hosts and hostesses will be Mr. and Mrs. George Robinson, Mr. and Mrs. Albert Graves and Mr. and Mrs. George Peck.

Notice

Hope Duplicate Bridge Club will not meet until Jan. 3.

Coming and Going

Mr. and Mrs. Fred Yocum of Houston, Texas, Mr. and Mrs. W. E. Sanders, Tom Yocum and children, Sylvia and Thomas Howard of Hope was the guest of Mr. and Mrs. Joe Ross and family, Christmas Day.

Arkansas'

Continued From Page One

control of blackbirds. But an out-of-state farmer reported this discovery: Blackbirds don't like rock 'n' roll music.

In the year ahead... Rep. Wilbur Mills (D-Ark) has warned that Congress may trim back its agricultural programs. He urged that farm leaders help write new legislation to solve mounting government-held surpluses and the cost-price squeeze.

Congress will be less responsive to proposals for expensive government aid to the farmer, he said, because of mounting expenditures in other areas.

This year farmers in Arkansas and the rest of the nation voted overwhelmingly for continued government controls on acreage allotments for cotton and rice. Continued quotas meant a better price support.

Although corn producers in Arkansas relatively few agreeing to vote to end acreage restrictions, an agricultural official pointed out that there would have been little difference in the corn price support no matter how they had voted. "They just felt that since it made little difference in price support they might do better with an

unrestricted crop," he said.

But already gone is the acreage reserve phase of the Soil Bank program. The last Congress failed to appropriate funds to carry this phase through 1959.

Remaining is the conservation phase under which farmers sign 5 to 10-year contracts, agreeing to use the land only for soil reclamation, legumes, ponds or wild life conservation.

The deadline for 1959 pledges has passed.

ASC officials said Arkansas farmers offered to pledge a half million acres but Congress had only provided enough funds for 310,000 additional acres.

Thus, in 1959, Arkansas farmers will realize only \$6,703,888 from the Soil Bank—compared to this year's 20 million dollars.

"Congress may insist on reducing the cost of the farm program of the future," Mills told a recent agricultural meeting. "But it will still appropriate substantial sums for agriculture if its members are convinced that they are working toward a permanent solution."

A Magic Circle

Continued From Page One

by three newly-built causeways.

Tropic Flower Show

Our first objective was photographing of Sunken Gardens, an all-year show of tropical flowers, enhanced by pink flamingos. Among other things to see and do in St. Petersburg, the popular shuffle board club with 100 courts and thousands of members, lawn bowling, horseback riding, chess, checkers and softball. Outstanding in the latter category is the Old Timers Softball League.

But youth also must be served, so St. Petersburg has come up with the first city-operated charm school. Here, teenagers are taught all the secrets of feminine wile. Many go on to greater things as models and even movie stars. The majority use the benefits obtained to snare their favorite man—object matrimony.

Motorists have a treat in store for them as they leave the city by way of the remarkable Sunshine Skyway, a toll highway which crosses nine miles of the bay by means of a series of fills and bridges, and which saves 40 miles to the lower west coast.

The great central span, which towers to a height of 15 stories above the water, permits the passing of ships bound for the port of Tampa and offers an unhampered view of the area for miles around.

Next to greet your eye is Sarasota, a rapidly growing community famed for its Jungle Gardens, unbroken stretch of white beach and as winter quarters of the Ringling Brothers Circus. The Ringling Museum houses valuable sculpture and paintings, and the Circus Museum displays all the old and colorful gear of the days when the "big top" was on wheels. Other highlights are the Cars of Yesterday and the Music Box Arcade.

Turning northward (Florida 17), you drive through cattle and phosphate mining country to Lake Wales, in the heart of the scenic citrus section, which is noted for the Bok Singing Tower and the Mountain Lakes Sanctuary, with its world-famed carillons and rare plantings. Millions have visited it since it was first developed by Edward Bok in 1923. Here also is the Black Hills Passion Play, staged in a natural amphitheater, and the nearby Great Masterpiece, a

New Concept of Ice Age Is Offered

By FRANK CAREY

WASHINGTON (AP)—A revolutionary new concept of the Ice Age depicted one great glacier that temporarily buckled the upper United States to great depths.

Dr. Richard J. Louge of Clark University, Worcester, Mass., offered the idea.

He said there is evidence to support a theory that much of the top half of the country was temporarily depressed to depths up to 2,000 feet by a massively heavy ice sheet.

This concept clashes with classic theories of Ice Age history.

It has long been held that there were four separate periods of glaciation affecting the United States, with more or less moderate effects on the earth's crustal profile.

Louge presented his reasoning Friday at the opening session of 125th annual meeting of the American Assn. for the Advancement of Science.

He contends that great areas were temporarily basined and then, "in a mighty upheaval that presumably represents an underflow of thousands of cubic miles of rock fluid under the continent, the depressed glaciated regions from the Atlantic to the Pacific began to rise."

For 30 years, Louge said, he has accumulated evidence in New England to support his theory. And last summer, he related, he picked up new evidence in the West and Far West. He said that up to now it has been assumed in the latter sections that there had been no such thing as a gigantic upwarping of the earth's crust after glacial action had subsided.

He said he had found indications that, instead of four repeated meetings and reformings of ice caps in the Mississippi Valley, as classically held, the following took place:

1. There was one great continental glacier that spread over the northern parts of North America from Canadian centers, extending as far south as where St. Louis, Mo., lies today.
2. As the great ice cap melted, a deep ice-front lake was formed, spread over thousands of square miles of the prairie states from Ohio to the Dakotas.
3. Huge icebergs crashed long in the open waters of the "lake," dropping Canadian stones—some weighing up to 18 tons—on the uplands of northern Kentucky, the prairies of Kansas and Nebraska, and the foothills of the Ozarks.
4. There was an emergence of ice-filled rivers, and the formation of deep canyons, as the ice melted, "while mammoths and mastodons tramped the plains far and wide."

mosaic tile creation of da Cincel's.

Nearby Winter Haven is home of the Florida Citrus Museum, open all year. Five miles east are the beautiful Cypress Gardens, famed for both water skiing shows and rare blooms from all parts of the world.

Lakeland is a pleasant spot to visit. It offers a choice of 13 lakes within its city limits, with good bass fishing in most. (Polk County has 600 lakes). Pause to see Florida Southern College, occupying buildings designed by world-famed Architect Frank Lloyd Wright.

Break for Motorists

If you like to swim—or just sit and watch the merrymakers—then it is good tidings that most of the new hostilities being opened, and which are geared to the motorists' needs and whims, are equipped with swimming pools.

Among these, visited by Magic Circle field reporters are the two-story LaSands Western Hills in Shreveport, La. (U.S. 80) built around the pool. Groton Motor Inn in Connecticut. Holiday Inn, Kansas City, Mo. Western Hills Inn, Eufora, Texas (State 183 between Dallas and Fort Worth). In San Francisco, the Motel Capri. In Minneapolis the Curtis Hotel has a new adjacent motor lodge in the heart of the city, which not only has a pool but morning call system by buzzer, electronic guest registration system from the gatehouse, ice without bellmen, picture windows.

New Travel Luxury

Jacktown Motor Hotel, near the Twin interchanges on the Pennsylvania Turnpike, has nine dining areas and a pool planned. Denver had two recent debuts: the Kearney Motor on Colorado 72, with a heated pool, plus suites and hotel splendor; and the Continental Denver, a swank motor hotel well within the city limits on the new Valley Highway (U.S. 87).

Florida has its customary winter boom of new hostilities designed with the motorist in mind: St. Petersburg entries include the Safari and the Colonial Inn, a two-story structure with 200 units, which lowers to one story around the pool area and the Gulf of Mexico. Miami has three: the Carillon, a \$20 million beach hotel built in the contour of a carillon-topped bell tower has not one but two swimming pools, as well as a beach golf range and putting green; the Regal Village, a resort motel, boasts a separate kiddie playground and pool, plus dining, dancing, spa, club and sports facilities; the largest hotel in the state, the Biltmore, has a \$10 million beach hotel at the Glades interchange of the Sunshine State Parkway.

SCOURGE OF GRASS—Johnson Grass, a parasitic weed unknown to Midwest farmers a decade ago, threatens to spread its deadly growth over a wide area of the nation's breadbasket. Farmer Charles Cassout explains the sword-like grass growing more than 10 feet high in Kaskaskia, Ill. The American Farm Bureau and Soil Extension Services are battling to get rid of it.

Frictionless Auto Bearings Being Used

By DAVID J. WILKIE

AP Automotive Writer

DETROIT (AP)—Frictionless bearings that require no lubrication apparently are coming in for wider use in automobiles.

Initially the bearings have been tested on automobile front ends. They have been used for knuckle and ball joints, especially in steering mechanisms.

The frictionless bearings are made of strong plastic and cotton strands impregnated with a phenolic plastic. The manufacturer says they can replace many conventional metal-to-metal bearings.

In a recent test the bearings were used in approximately 200,000 miles of simulated travel without lubrication. They showed no signs of appreciable wear or oxidation.

Another innovation may be the relocation of exhaust mufflers. Ward's Automotive Reports says one leading car maker is conducting experiments with the exhaust system at the front end.

"Information is the V-8 installations would have mufflers standing upright under each front fender," Ward's says. It adds that silencing resonators "would be placed, one on top of the other, on the front grille floor. The front exhaust discharging pipe would be well forward beneath the radiator grille, pointing rearward."

Claimed for the new exhaust system, says Ward's, is a sharp reduction in back pressure, making for more power and possibly less fuel consumption.

The agency adds that the rear discharging systems as presently designed are expensive and inefficient and interfere with good car frame construction practice.

Evangelist John Polizzi

Special Revival Services will be conducted at the South Side Assembly beginning December 26th through January 4th at 7:30 P.M. was announced today by Pastor S. Joseph Gono.

There will be special music at each service, prayer for the sick, and old fashioned gospel preaching by our invited guest, Mr. Polizzi, a professional musician having played with various symphonic bands and is at present band master in one of the High Schools in St. Louis, Mo. The revival meeting will be for one week only and the public is invited to attend.

It does not presently appear likely the so-called trans-axle system or front-end exhaust installation will be introduced before 1961 or 1962. Preliminary work on 1960 models already is well along.

Most industry experts agree however, that car engineers are about ready for a major operation on the hump in the car floor. Needed to provide space for the transmission and drive shaft, it has increased in size as the cars have been lowered in height.

Doctors Say Man May Be 188 Years Old

TEHRAN, Iran (AP)—Two doctors have examined Sayed Ali Saleh Kutahi and have come away saying they are convinced he is anywhere from 158 to 188 years old. Kutahi says he is 185.

After the aged man's story was published in newspapers the government sent two doctors to the village of Kuleh to examine him.

After a thorough examination they issued a communique saying "in the course of the examination the age of Sayed Ali Saleh Kutahi was estimated between 158 and 188."

They said the man was healthy except for a weakness in the eyes, ears and some teeth. The two doctors were Amir Hafez, head of a district health department, and Abdul Valahi, head of the district's hygiene department.

French Plane Falls, 3 of 70 Are Killed

SALISBURY, Southern Rhodesia (AP)—A French airliner with 70 people aboard crashed on takeoff and burned here today. Three South African passengers were killed.

Twenty persons were taken to a hospital with injuries. The plane was totally destroyed. It had left Johannesburg earlier today for Paris via Brazzaville on.

Rock are spending two weeks with Mr. and Mrs. A. M. Reilig, Kathy and Ellen.

Mrs. J. B. Ritchie is the holiday guest of Mr. and Mrs. Pat Fore and Sharman in Hattisburg, Miss.

Mr. and Mrs. Pado Cravens Jr. and sons Chad, Tommy and Ben of Fort Smith are the guests of her parents. Mr. and Mrs. Tom Bemis.

Miss Opal Daniel of Hope was the Christmas Day guest of Miss Hazel Matlock.

Miss Patay Marcors of Amity and Miss Billie Sue Waters of Helena, practice teachers from HSC are spending the holidays at their respective homes.

Mrs. Martha Johnson, Johnny Jo and Stacey Lee of Grand Prairie, Texas are the guests of her parents, Mr. and Mrs. Vuel Chamberlain.

Mr. and Mrs. Dallis Atkins are the guests of Mr. and Mrs. Duncan Mitchell and children in Kansas City.

DOROTHY DIX

Blond's Reserved, Though Not For Him

Dear Dorothy Dix:

I'm a man of 48 and up to this time have flattered myself that I could solve any problem involving a woman. Now I admit I'm stuck and am turning to you for advice. I take a bus for several months every day and for taking it from my corner. She's about 40, blonde, very attractive and definitely different from any woman I have ever known. Naturally I have tried to get acquainted but she manages to resist every effort on my part to make headway with her. Is there anything I can do to convince her of my sincere interest—Lonnie.

Dear Lonnie: A woman of such resistance must have a reason for it—possibly a husband and some teenagers who need schooling money. You seem like a nice guy and if she had any inclination to pursue a friendship with you, I'm sure you would know it by now. Give up before you land in hot water.

Dear Dorothy Dix:

I've been going steady for two years with a boy who claims he loves me and talks about marriage. One thing bothers me. He keeps about six pictures of his old girl friend in his wallet. Do you suggest that I ask to get rid of them before I take his ring, or let

a South African travel agency. The plane, a D1G of the Union Aeronautique de Transport, a private French airline, carried 63 passengers and a crew of seven.

It took off in a blinding rain, storm, and was airborne for only 30 seconds before it crashed back to the runway.

Christmas holiday crowds watched horrified from the airport balcony as the plane burned on the ground.

Dear Maryanne: Your husband should consult a lawyer to find out where he stands. His responsibility is largely dependent on the terms of the divorce decree.

Dear Dorothy Dix:

My 22-year-old son is about to become engaged to his childhood sweetheart. How does he go about asking her parents' approval of the match? Should he ask both parents together or just her father?—Mrs. T. P.

Dear Mrs. T. P.: It's a thoughtful gesture to ask both parents together. The girl should not be included at this interview.

it go until after?—Pearl

Dear Pearl: Don't let any major decision wait until after you get the ring. By that time it begins to get too late. Settle the picture issue right now.

Dear Dorothy Dix:

Several years ago my husband was divorced from his first wife and she obtained custody of their child. She remarried and her husband died recently. Now she wants to sue my husband for support of this child. What chance does she have of getting it? We're not too well off and have two children.—Maryanne

Dear Maryanne: Your husband should consult a lawyer to find out where he stands. His responsibility is largely dependent on the terms of the divorce decree.

Dear Dorothy Dix:

My 22-year-old son is about to become engaged to his childhood sweetheart. How does he go about asking her parents' approval of the match? Should he ask both parents together or just her father?—Mrs. T. P.

Dear Mrs. T. P.: It's a thoughtful gesture to ask both parents together. The girl should not be included at this interview.

Prescott News

Presbyterian Sunday School Party Held

The Presbyterian Sunday School held their Christmas party on Monday evening at the church.

All departments of the Sunday School took part in presenting the Christmas story as follows: The Kindergarten Dept. sang "Away In a Manger," the Primary Dept. presented a poem and song; the Junior Dept. recited prophecies of the birth of Christ; the Pioneers and Seniors presented a pageant of the Christmas story.

Mrs. Jim Nelson, chairman of the Christmas Education Committee, announced the program and Al J. Daniel, Sup. of the Sunday School, was in charge of the Christmas tree and gifts.

Immediately following the party the members of the Senior and Junior Fellowship went on their annual Christmas tour. Each health group visit the homes of shut-ins and served them with family Christmas carols. They also visited Haynes Dairy Queen for refreshments. Rev. and Mrs. J. H. Robertson, Mr. and Mrs. J. B. Bennis and Mr. and Mrs. Frank Anderson accompanied the group.

Mr. and Mrs. Buchanan Entertained

Employees of the Nevada Theatre were entertained with a Christmas party on Monday evening at the theatre by Mr. and Mrs. Vernon Buchanan.

Gifts were exchanged from a

beautifully decorated Christmas tree after which refreshments were served at Haynes Dairy Queen.

Presenting: Eddie Haynes, Johnny Moore, Jimmy Nick Peters, Billy House, Tommy Jones, Mrs. Jimmy Dundee, Misses Jane Purdie, Linda Vandiver, Nelda McBray, Jean Buchanan, Jeanne Jones, Ginger Cruise and Pvt. and Mrs. Bobby Johnson of Newport News, Va.

Olen Hendrix Honored

Olen Hendrix of Prescott and Arizona was lauded as a war hero by the community at a banquet given at the State Hospital Board of Control.

Hendrix, who will become state senator of the Seventh District in January, has resigned as chairman of the State Hospital Board of Control.

About 400 members and guests of the A.F.L.-C.I.O. Local 1300 honored him at the dinner.

Laus praised the workers and administration of the hospital calling the operation "more adequate than it ever has been before."

Guests in the home of Mr. and Mrs. Vernon Buchanan are Mr. and Mrs. Ed Aldenburgh of New Orleans and Pvt. and Mrs. Bobby Johnson of Newport News, Va.

Dances at Central, Crash-Lands Plane

MONROE, Wis. (AP)—Carl V. Anderson, 40, of the controls at his plane, crashed in southeastern Wisconsin.

Sunday - Monday at Saenger

Taina Elia, as a French farm girl, tries to follow an argument between Glenn Ford and Red Buttons in a scene from MGM's "Initiation General."

Wed. - Thurs. at Saenger

Zsa Zsa Gabor, stars in "Queen of Outer Space" at the Saenger Wednesday and Thursday. Four features will be shown Wednesday, starting at 6 p.m. The other three features are Jane Mansfield in "The Girl Can't Help It", Terry Moore in "Mighty Joe Young" and "The Party Crashers". The first three features will also be shown Thursday.

said he watched the single-engine plane circle lazily for about 12 minutes, gradually losing altitude. When the plane was about 100 feet above the ground, Anderson, of Poyonette, Wis., regained control and crash-landed on a town road.

Anderson suffered cuts on one knee. The plane was damaged extensively.

Details of the incident were contained in a sheriff's report. Anderson was en route to Ollawa, Ill.

Zanuck Chides Gloom Feeling in Hollywood

By VERNON SCOTT
UPI Hollywood Correspondent

HOLLYWOOD (UPI)—Darryl F. Zanuck, back from two years of movie-making abroad, scolded his fellow blighters today for being gloomy and pessimistic about producing pictures.

"The entire industry is pervaded by the feeling of gloom and uncertainty," he said.

"I'm optimistic because business is sensational in Europe. In London and Paris even bad pictures have long lines of customers waiting to get into theaters. It's a real upsurge."

"There is no gloom among industry people abroad—they're encouraged by those long waiting lines."

Zanuck himself is responsible to a degree for the cheerless attitude among movie folk who rely on pictures for a living. His last three films were shot away from Hollywood. Thus millions of dollars were stuffed into foreign pockets.

Hasn't Been in Hollywood

His explanation: "Those pictures couldn't be made anywhere else but on their present location."

Then he admitted his optimistic point of view was somewhat slanted.

"Having not been in Hollywood I haven't been subjected to the box-office blows that some of the others have," he said. "That is my advantage. That is why I'm not gloomy."

It hasn't occurred to Zanuck that he and other producers are responsible for movietown's troubles. He blames TV, failure of movies to develop new talent, and exorbitant demands of stars.

"So actors and directors are completely out of control in their price demands," he charged.

"And with no particular advantage to themselves. In most cases these huge salaries are just tax money. If they'd agree to take less the profits could go back into the industry to make more pictures."

Will See God Films
Zanuck said movie-goers will continue to go to theaters to see good films, but not to many of them are being made.

"Coming back here I find producers complaining that they're not making money on pictures only to find them die at the boxoffice. Unless you have a blockbuster your chances are not very rosy. And blockbusters are difficult to find and make."

"However, I think business will be healthy again," he said. "I'm one of the largest stockholders of movie stock in the world. And I've never sold a share of motion picture stock in my life."

"If I had the money I'd like to buy more 20th Century-Fox stock."

Zanuck's faith in the future isn't just talk. He plans to film four pictures in the next 18 months—some here, some abroad.

Believes Boone Should Return to Old Role

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP)—"Please my down that gun and go back to being the nice, clean-shaven Dr. Sylvester."

This message, scrawled on a Christmas card by a fan, is one reaction accorded TV star Richard Boone. He gets all kinds, thanks to the professional life he leads.

For two seasons, he starred, as the dedicated doctor on the ambitious "Medic" show. Now he's finishing up his second year of films in the popular "Have Gun, Will Travel" series.

Plus which he has done some distinguished work in movies and live TV. Next Feb. 12, he plans to open on Broadway as Abe Lincoln in a play about the Lincoln-Douglas debates. "The Rivalry."

Right now there is real confusion among the fans because "Medic" is getting a big play in syndication. Boone remarked: "In fact, it is getting better ratings in nearly all locations than it did when it was on NBC. Some folks think I should give up the gun and go back to the scalpel."

No chance, "Medic," which solved a lot of ills, couldn't cure itself. It suffered a final demise.

Boone has three years to go under contract with "Have Gun, Will Travel." Judging from the popularity of the show, he'll go the full term. That doesn't upset him.

"I've done two years as Paladin and I haven't tired of him yet," he said. "He's a delightful character to play, and the very nature of the show allows us to move around a lot. I don't like to stay in one place."

He said he would like to go to Hawaii and Chumeyaca. We're also hoping to go to Europe.

PIGHEADED—it looks as though a butcher in Oslo, Norway, is going the whole hog. He's hoisting a huge porker that has gone to market and will soon be spread over many Oslo tables.

THREE FACES OF LOVE by FAITH BALDWIN

© 1957 by Faith Baldwin Cathell. Distributed by NEA Service, Inc.

Chapter XXIII

Now, and until Emmy was much older, their days would weave into their pattern, and a new design. They must always confer about Emmy, her health or her loss, her first schooling and friends, her growing demands. Today it would be the night shoes for the running feet, and the early inoculations; tomorrow it would be toilet and other health measures.

Later it would be conferences with hurried heads of nursery schools, then with teachers and principals. It would move to the first party, the first boy, the first formal, and go on and on and on.

"They would have to go with it, and grow up with Emmy; they really hadn't had time to grow up before, being so happy and self-centered and engrossed."

Day by day, week by week, year by year, and as then, hour by hour they were learning something of the nature of love, its wellspring and source, its requirements and gifts.

"This is a knowledge that cannot be shared even with each other save in the uncertain words and inadequate gestures, but it is a sustaining thing."

They were also learning new conflicts for it is integral that parents are not always in agreement, and where they were separate—each in his own relationship to Emmy—they sometimes dissented.

These were not serious quarrels, but Adam and Hope were astonished to find that they must disagree over Emmy.

Throughout their marriage their quarrels had not been as harsh as the spoken word sounds; they had, rather, met in conflicts of opinion or understanding, and experienced irritation or exasperation. All this had moved through their marriage as gentle waves through an otherwise flawless summer night and were induced by fatigue or outer circumstance.

But now there was Emmy, who demanded of them, mutually and separately, Hope bought books on child care, rearing, and psychology. Adam laughed, and flipped the pages with a scornful flick.

But sometimes she came upon him reading them, and then she laughed. These books were often contradictory, which, naturally, confused the readers.

On the subject of discipline, each found a printed authority with which to confound the other.

Hope, herself a disciplined child, was determined her child also be disciplined. Adam had grown up without the strict sense of discipline for Helen had alternately spoiled and restricted him. His father had done neither. His father's way, Adam believed, was better.

Hope said, "All very well but it won't work. You don't want her spoiled. So if she has a gun and points it at my added head, I'm supposed to take it away and give her a nice sharp knife to divert her. Really, darling, I want to enjoy her for Heaven's sake. I can't let her take her places with us. And we can't take her to public places or other people's houses if she's going to tear around cheerfully unrepresented stamping on furniture and hurling things."

"Don't exaggerate. She doesn't!"

"Well, not yet but the time always comes, Hope said darkly. Offensively, Adam, they aren't."

of the show, allows us to move around a lot. I don't like to stay in one place."

"What is she talking about?" asked Hope.

"Her own language, she does so without thinking. It's she who apologizes, and I wish she wouldn't. I've decided we must learn by having her teach us."

Adam said, "I'm glad you have her." She said, "I looked down at the books and up again. It's a silly thing to say. I must be kidding up, but she's Emmy. She's a little spoiled, but she's a little spoiled."

Emmy was three that autumn and Hope spoke firmly to Adam. "It's absurd," she told him. "She's so spoiled, we'll have to spoil her. Why don't we have another?"

He said defensively, "Maybe she's a little spoiled but not as much as most. At least she doesn't yell all day and half the night, and stamp around like the kids next door. Helen says she's remarkably well behaved."

Nutcracker Ballet Termed Curious Show

TELEVISION IN REVIEW
United Press International

NEW YORK (UPI)—CBS-TV's Playhouse 80 unpackaged a nutcracker ballet Thursday night that contained some of the most dazzling sequences of the season.

In a way, it was one of the most curious TV shows I have ever seen since it managed to surmount some particulars that were almost unbearably candied: A cloying narration written by Leo Lerman, the delivery of that narration by June Lockhart and the opening sequences in which children and grownups engaged in the dreariest sort of frivolity.

But once the camera cleared these syrupy hurdles and moved inside the dream sequences that covered roughly the last half of the production, the show was a stunner. The New York City Ballet was on hand and Playhouse 80 wrapped the company in a superb production, all of it beamed out in an elegant color.

Dance fan or not, it was worth 90 minutes of anybody's time just to catch young Allegra Kent in

She is proud of her English, but deprecates her accent, which we assure her we love. And she likes to teach us—but not at first."

"But Emmy understands her," said Hope.

"Of course," Marty agreed tenderly. "Emmy hasn't a notion what the words are, yet she knows what they mean. Children seem to sense what's beyond the words."

Hildegard looked up and saw them. She said, "Emmy and I have made a little house." She touched the bright small head beside her. "Such a lovely."

That was one way of putting it. Not such a lovely child or such a lovely little girl, just such a lovely. And no one corrected her.

Helen came on, before summer set in. She was, she announced, retiring. She was sick of audiences, she told them to their astonishment.

"They've served their purpose," she said. "I can get along without them now. I'm tired of tramping all over. I'll hole up in the country and write a book or two. I think, now, I have something to say though I'm not sure. Teresa will go with me. There'll be less income, but enough for us to live like that."

Late that night Hope went into Emmy's room, having been wakened by a wail which played out of Adam's dreams. "Water," said Hope despairingly, attending to her daughter's bemused demands. She looked at the little creature in the crib. "If you insist on water, you know what will happen."

"Hot," said Emmy happily. A lot she cared.

Leaving her in the gentle darkness, her thirst quenched, and intently asleep, her arms flung out, her legs at an impossible angle, Hope passed the guest-room door and saw a light shining under it. She knocked, and Helen said, "Come in."

She was reading, a bed jacket over her shoulders, her smoke-gray hair under a net.

"What's the matter?" asked Hope from the doorway.

"Awake. And I don't like sleeping pills," Helen said.

"I'm sorry," Hope said.

"Come in," said Helen, "and sit down." Hope sat on the edge of the bed and looked at the small, thin face.

Helen said, "How long have I been here, three days? I used to envy you and Adam the big things. I don't any more. Just the small, your face, chances. I don't envy you, you know, like that, but the waiting's over, and here I am. And you have private jokes. I have heard you say 'idiot things' and then smile at each other; sometimes you don't say anything, but are remembering something simultaneously. We never had that, Adam's father and I."

She opened the book. "Go to bed," she said. "Incidentally, what brought you to my door?"

"Your grandchild wanted water."

Helen smiled. "I'm glad you have her." She said, "I looked down at the books and up again. It's a silly thing to say. I must be kidding up, but she's Emmy. She's a little spoiled, but she's a little spoiled."

Emmy was three that autumn and Hope spoke firmly to Adam. "It's absurd," she told him. "She's so spoiled, we'll have to spoil her. Why don't we have another?"

He said defensively, "Maybe she's a little spoiled but not as much as most. At least she doesn't yell all day and half the night, and stamp around like the kids next door. Helen says she's remarkably well behaved."

Hope raised the smile from her mind. "I've never heard Adam quote his mother as an authority."

As they were talking, sitting in the kitchen, a plane was flying over the mountains. It did not reach its destination. In the morning at breakfast they turned on their radio, an impersonal voice spoke, and they looked at each other with the expressionless faces of people who hear yet can not will not believe.

All the passengers and crew on that plane were shown and loved by others for everyone has come to know that plane. It was a plane who had been known to people who had been known to them. One of these was Dr. Emilie.

action as "Dew Drop." Her technique is still a little knobby and she hits a slight sloppiness slip into her work. But it is a sloppiness that springs from enthusiasm and it's a pleasure to watch her unner. She is developing a long and beautiful line and something plus that Ingwers could be called presence. It's too bad that TV doesn't make more use of talents like hers. She's a comer.

The rest of the company also worked well. Diana Adams, a dancer with a fine line, turned in an awfully slick contribution as the "sugar plum fairy" and Judith Green unleashed some splendid technique in the role of the "Marzipan princess."

I guess in something like this a good deal of credit should go to director Ralph Nelson and to George Balanchine who staged the whole business. Okay, herewith a fix two credits.

Short Shots: CBS-TV's Armstrong Circle Theater was about the only TV show on Christmas Eve to display enough initiative to trot out some of the less popular Christmas carols — "Silent Night" is a lovely carol, but two full weeks of it can be pretty trying...

W's heartening to see NBC-TV's behind closed doors save the world each week from war. Last week, its hero foiled a plot to kill King Hussein of Jordan and Thursday night, it saved Marshal Tito of Yugoslavia from being blown up by an enemy swimmer.

The Channel Seven: CBS-TV's To Tell the Truth will start taping its show on Jan. 6. The reason: Ralph Bellamy, who'll soon rejoin the panel, and Polly Bergen are both involved in Broadway shows...

CBS-TV's Arthur Godfrey has booked Red Skelton for his Jan. 27 evening show and Rodgers and Hammerstein for his Jan. 13 evening show.

Tom Donovan, who directed the recent CBS-TV special, "The Hasty Heart," hopes to bring it back as a revival with the TV cast at New York's City Center Theater...

Christopher Plummer's co-star in the NBC-TV Omnibus production of Prince Orestes on Jan. 4 will be Irene Worth.

CBS-TV has bought a new movie, "The Great St. Louis Bank Robbery," which stars Steve McQueen, lead cowboy in CBS-TV's Wanted Dead or Alive...Dr. Charles Frankel, professor of philosophy at Columbia University, will host a new CBS-TV show, The World of Ideas, which kicks off on Jan. 18.

Music Corporation of America, the talent agency, wants Barbara Bel Geddes to star in a new filmed TV series, Bringing Up Katie...Herbert Leonard, producer of ABC-TV's Naked City, is lining up another series for next season.

Brute Force, which will be about engineers who roam the world, I

when needed. These dams, combined with contour plowing and adequate reforestation, have done and are doing a wonderful job of water conservation, in addition to increasing the overall water acreage of the Nation.

Water pollution gradually is falling more and more into public disrepute. Legislation is becoming increasingly strong and the penalties so severe that the clean streams program of the nation at last shows signs of having very definite meaning. Thus, more fishing and recreational waters are being reclaimed.

Now many of the States have instituted programs of lake-reconditioning. About our country, many lakes which were once good fishing waters but which, in their present condition, are of little use. Too shallow, clogged with weeds, holding undesirable fish, these lakes simply take up space and do little else.

It is these bodies of water at which the lake-reconditioning programs are aimed. Undesirable fish are removed and, in some cases, the lake is reduced to a complete biological desert. Then, starting from scratch, desirable fish are stocked.

The natural food supply also is established. Beneficial plant growth is introduced and, in surprisingly short time, good fishing can be found in what once was a completely useless lake.

Naturally, all of this takes time, work and money. These valuable commodities have been and are being spent by the conservation departments.

Now comes word from Wisconsin about some of its lakes which have been so carefully and painstakingly rehabilitated. Unthinking (which is another way of saying "stupid") people evidently have been dumping minnow pills into the lakes at the place of a fishing day. Result — the undesirable fish which were removed at such cost and effort once more are taking over the reconditioned waters.

Always I suppose there will be that deplorable small group which manages to undo the good works of many. So long as people are people, we will have the damaging element with us. You would think, however, that a man who likes fishing would take the trouble and the thought to aid in the preservation of that which has been provided for him. Small wonder that conservation men get very hairy-early in life.

(Released by The Register and Tribune Syndicate, 1958)

ALUMINUM TABLES

The schedule of Solar Periods, as printed below, has been taken from John Alden Knight's Solar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The Major Periods are shown in boldface type. These begin at the times shown and last for an hour and a half or two hours thereafter. The Minor Periods, shown in regular type, are of somewhat shorter duration.

A. M. P. M.
Minor Major Minor Major
Saturday 6:30 12:15 6:55 12:40
Sunday 7:20 1:05 7:45 1:30

Matter of FACT

While the framers of the U.S. Constitution provided a means to change the document, they did not make it too easy. Of more than 3,000 proposed amendments introduced in Congress, only 22 have been adopted. The first 10 were ratified as a whole in 1791. To make a change, a two-thirds favorable vote in both houses of Congress must be followed by ratification of three-fourths of the total number of states.

HAVE
FAITH
IN
GOD

TIME RUNNING OUT!

TRUST
ONLY
IN
HIM

New Year's Eve and four minutes 'til midnight. It is time to total your failures, to calculate your successes, and to make bonafide resolutions. Did this year bring a spiritual surplus for you? Do you have a clearer view of destiny? Do you know more of the meaning and purpose of life? Have you had time for God? *If not, it will be a terrible day, when God has no time for you.* As the New Year dawns, we know God is in front. He will be in all the tomorrows. Happy New Year!
